### Placing An Order

#### Placing An Order

Thank you for using Siemens switchgear products. We appreciate the opportunity to help you keep your Siemens equipment properly maintained and to help you get maximum value from your purchase.

Siemens is proud to provide prompt, accurate service for our customers and their distributors. All of Siemens standard parts for switchgear are listed in this document together with current pricing. As you make your selections, feel free to contact your distributor or Siemens sales representative or the Siemens Renewal Parts Department for assistance.

We look forward to serving your needs. Let us know how we can help.

#### To Place An Order Directly With Siemens...

The most efficient way to place an order is with a completed Purchase Order. Each PO should be made out to Siemens and should include a detailed listing of part numbers, part descriptions and correct prices. The PO should also incorporate, by specific reference, the standard Siemens terms.

Purchase Orders may be submitted to Siemens via FAX. The original PO should then be mailed to Siemens.

#### To Place An Order With Your Distributor...

Your Purchase Order should be made out to your distributor and should include a detailed listing of part numbers, part descriptions and correct prices. The PO should also incorporate the distributor's standard terms.

Distributors typically require that a Purchase Order be submitted via fax and/or mail.

#### Minimum Order:

The minimum order for renewal parts is \$100.00.

*(For quick future reference, complete this information. Upon your first call to Renewal Parts, a Parts representative will be assigned.)*

Wendell, NC 27591

### Lead Times

Standard parts (those listed in this parts list) will be shipped within two weeks\* of receipt of customer Purchase Order. Emergency "Next Day" orders for standard parts are subject to credit approval and will incur a \$100.00 expediting surcharge.

Special parts (those not listed in this parts list) may require additional lead time. Please consult your Renewal Parts representative in Raleigh. Note: Parts for non-current production equipment are made available for at least ten (10) years following introduction of replacement designs. Power circuit breakers of current design require four (4) to six (6) weeks for manufacture.

Power circuit breakers of non-current designs may require eight (8) to twelve (12) weeks for manufacture. Please consult your Renewal Parts representative in Raleigh.

*\*In certain unusual circumstances, stock parts may require up to four weeks for delivery. Static Trip III and Static Trip II trip units may require four to six weeks for delivery. It is recommended that you confirm delivery dates with your distributor or parts representative.*

### Restocking

Standard parts ordered in error may be returned for 75% credit.

Special parts and circuit breakers may not be returned without prior approval. The amount of any restocking charge will be determined on a case by case basis. Contact your Siemens parts representative.

### Shipping

Shipments will be made by truck, UPS or other ground transportation, FOB factory, normal freight prepaid and allowed.

Special shipments by rail, air, exclusive truck or courier will be paid by customer.

### Payment Terms

Net cash 30 days from date of shipment.

### Notices

Prices are subject to change without notice. While Siemens has made every effort to assure the correctness of all information contained in this parts price list, we cannot be held liable for printers errors or omissions.

### Terms And Conditions

#### Standard Terms And Conditions Of Sale

1. **WARRANTY** - Company warrants that on the date of shipment to Purchaser the goods will be of the kind and quality described herein, merchantable, and free of defects in workmanship and material.

If within one year from date of initial operation, but not more than eighteen months from date of shipment by Company, of any item of the goods, Purchaser discovers that such item was not as warranted above and promptly notifies Company in writing thereof, Company shall remedy such defect by, at Company's option, adjustment, repair or replacement of the item and any affected part of the goods. Purchaser shall assume all responsibility and expense for removal, reinstallation and freight in connection with the foregoing remedy. The same obligations and conditions shall extend to replacement items furnished by Company hereunder. Company shall have the right of disposal of items replaced by it. Purchaser shall grant Company access to the goods at all reasonable times in order for Company to determine any defect in the goods. In the event that adjustment, repair or replacement does not remedy the defect, the Company and Purchaser shall negotiate in good faith an equitable adjustment in the contract price.

The Company's responsibility does not extend to any item of the goods which has not been manufactured and sold by Company. Such item shall be covered only by the express warranty, if any, of the manufacturer thereof. The Company and its suppliers shall also have no responsibility if the goods have been improperly stored, handled or installed, if the goods have not been operated or maintained according to their ratings or according to instructions in Company or supplier furnished manuals, or if unauthorized repairs or modifications have been made to the goods.

THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES (EXCEPT TITLE), INCLUDING BUT NOT LIMITED TO IMPLIED WARRANTIES OF MERCHANT ABILITY AND FITNESS AND CONSTITUTES THE ONLY WARRANTY OF COMPANY WITH RESPECT TO THE GOODS.

The foregoing states Purchaser's exclusive remedy against Company and its suppliers for any defect in the goods or for failure of the goods to be as warranted, whether Purchaser's remedy is based on contract, warranty, failure of such remedy to achieve its essential purpose, tort (including negligence) strict liability indemnity or any other legal theory, and whether arising out of warranties, representations, instructions, installations or defects from any cause.

2. **PATENTS** - Company shall pay costs and damages finally awarded in any suit against Purchaser or its vendees to the extent based upon a finding that the design or construction of the goods as furnished infringes a United States patent (except infringement occurring as a result of incorporating a design or modification at Purchaser's request), provided that

Purchaser promptly notifies Company of any charge of infringement, and Company is given the right at its expense to settle such charge and to defend or control the defense of any suit based upon such charge. THIS PARAGRAPH SETS FORTH COMPANY'S ENTIRE LIABILITY WITH RESPECT TO PATENTS.

3. **PERFORMANCE; DELAYS** - Timely performance by Company is contingent upon Purchaser's supplying to Company, when needed, all required technical information and data, including drawing approvals, and all required commercial documentation.

If Company suffers delay in performance due to any cause beyond its reasonable control, including but not limited to act of God, act or failure to act of government, act or omission of Purchaser, war, fire, flood, strike or labor trouble, sabotage, or delay in obtaining from others suitable services, materials, components, equipment or transportation, the time of performance shall be extended a period of time equal to the period of the delay and its consequences. Company will give to Purchaser notice in writing within a reasonable time after Company becomes aware of any such delay.

4. **DELAYED SHIPMENT; STORAGE** - Any item of the goods on which manufacture or shipment is delayed by Purchaser or by causes which affect Purchaser's ability to receive the goods may be placed in storage by Company for Purchaser's account and risk, and Purchaser shall pay all charges for storage, trucking and other incidental expenses incurred by Company. In the event of delayed shipment, Company may invoice Purchaser upon completion of manufacture or upon date the goods would have been ready for shipment.

5. **SHIPMENT, TITLE AND RISK OF LOSS** - The term "shipment" means delivery to the initial carrier in accordance with the delivery terms of this order. Company may make partial shipments. Company shall select method of transportation and route, unless terms are f.o.b. point of shipment and Purchaser specifies the method and route and is to pay the freight costs in addition to the price. When terms are f.o.b. destination or freight allowed to destination, "destination" means common carrier delivery point (within the continental United States, excluding Alaska) nearest the destination.

Title to the goods and risk of loss or damage shall pass to Purchaser at the f.o.b. point. Company shall not be responsible for damage to the goods after having received "in good order" receipts from the carrier. All claims for loss, damage and delay in transit are to be handled by Purchaser directly with the carrier. Claims for shortages or incorrect items must be made in writing to Company within thirty days after receipt of shipment. Failure to give such notice shall constitute an unqualified acceptance and waiver by Purchaser of all claims for such shortages or incorrect items.

6. **TAXES** - Any applicable duties or sales, use, excise, value-added or similar taxes will be added to the price and invoiced separately (unless an acceptable exemption certificate is furnished)

### Terms And Conditions

7. **TERMS OF PAYMENT** - Unless otherwise stated, all payments shall be in United States dollars, and a pro rata payment shall become due as each shipment is made. If shipment is delayed by Purchaser, date of notice of readiness for shipment shall be deemed to be date of shipment for payment purposes.

On late payments, the contract price shall, without prejudice to Company's right to immediate payment, be increased by 1 1/2% per month on the unpaid balance, but not to exceed the maximum permitted by law.

If at any time in Company's judgment Purchaser is unable or unwilling to meet the terms specified, Company may require satisfactory assurance or full or partial payment as a condition to commencing or continuing manufacture or making shipment, and may, if shipment has been made, recover the goods from the carrier, pending receipt of such assurances.

8. **NONCANCELLATION** - Purchaser may not cancel or terminate for convenience, or direct suspension of manufacture, except with Company's written consent and then only upon terms that will compensate Company for its engineering, fabrication and purchasing charges and any other costs relating to such cancellation termination or suspension, plus a reasonable amount for profit.

9. **GOODS RETURNED FOR CREDIT** - Company will not accept goods for return unless an authorization for such return has been issued by Company in writing. Only goods currently manufactured by Company and invoiced within the preceding twelve month period will be considered for return. If Company's permission to return any goods is granted, the amount of credit will be governed by the facts in each case. Credit issued for any item not returned in its original crate or carton will be subject to a deduction to compensate for crate or carton replacement. Special goods fabricated to order are not returnable under any conditions.

10. **NUCLEAR** - Purchaser represents and warrants that the goods covered by this contract shall not be used in or in connection with a nuclear facility or application.

11. **LIMITATION OF LIABILITY** - Neither Company nor its suppliers shall be liable, whether in contract, warranty, failure of a remedy to achieve its essential purpose, tort (including negligence) strict liability indemnity or any other legal theory, for loss of use, revenue or profit or for cost of capital or of substitute use of performance, or for indirect, special, liquidated, incidental or consequential damages, or for any other loss or cost of a similar type, or for claims by Purchaser for damages of Purchaser's customers.

12. **COMPLIANCE WITH LAWS** - Company will comply with all laws applicable to Company during manufacture and sale of the goods. Purchaser will comply with all laws applicable to Purchaser during operation or use of the goods.

13. **GOVERNING LAW AND ASSIGNMENT** - The laws of the State of Georgia shall govern the validity, interpretation and enforcement of this contract. Assignment may be made only with written consent of both parties.

If this Proposal includes goods manufactured by the Company's Circuit Protection or Electrical Apparatus Divisions, the following additional terms and conditions shall apply to those goods.

14. **PROPOSALS** - Fuses are not considered a component part of any device and are not included in this proposal unless specifically listed. Oral proposals are subject to immediate acceptance and terminate on the day made.

15. **PRICES** - In the event of a price increase, the price of goods on order but unshipped will be adjusted to the price in effect at the time of shipment. In the event of a price reduction, all goods unshipped as of the effective date of the reduction (except shipment held by request of the Purchaser) will be invoiced at the reduced price. Goods already shipped are not subject to price reduction. Orders on a bid or contract basis are not subject to this clause. Orders amounting to less than \$100.00 net will be invoiced at \$100.00 for goods covered by Discount Schedules. The company's prices include the costs of standard domestic packing only. Any deviation from this standard packing (domestic or export), including U.S Government sealed packing, necessitates extra charges. To determine such extra charges, consult Company's sales office.

16. **ADDITIONAL TERMS OF PAYMENT** - Invoice payment terms are as shown on latest discount sheets as issued from time to time. Cash discounts are not applicable to notes or trade acceptances, to prepaid transportation charges when added to Company's invoices or on discountable items if there are undisputed past due items on the account. Portions of an invoice in dispute should be deducted and the balance remitted with a detailed explanation of the deduction. Cash discounts will only be allowed on that portion of the invoice paid within the normal discount period.

Freight will be allowed to any common-carrier, free delivery point within the United States, excluding Alaska and Hawaii, providing the Company selects the carrier. On shipments to Alaska and Hawaii, freight will be allowed to dockside at the listed port of debarkation nearest the destination point. The Purchaser shall pay all special costs such as cartage, stevedoring and insurance. Special freight allowances are as shown on latest discount sheets as issued from time to time. Catalogued weights are estimated, not guaranteed. The Company assumes no responsibility for tariff classifications of carriers.
